

All U.S. Manufacturers & Suppliers. All in One Place.

CONNEX Marketplace is a SaaS platform that connects all U.S. manufacturers and suppliers into a single, accurate, searchable supply-chain database.

CONNEX intelligently connects American manufacturers and suppliers to large primes, OEM's and government buyers based on deep data such as equipment, certifications, SBA designations, processes, capabilities and more.

Whether you're a buyer or seller, CONNEX Marketplace is your solution to find and be found!

FOR BUYERS (OEM/PRIME)

Find the Perfect Supplier Every Time

Find the perfect qualified supplier every time with faster and more accurate searches. Filter searches by equipment, capabilities, services, certifications, location, hub-zone suppliers, SBA and much more. In addition, list your RFIs, RFPs, and RFQs and setup events to virtually meet qualified candidates.

FOR SELLERS (SUPPLIERS)

Find New Opportunities & Get Discovered by Primes/OEMs

It's time to be found. Build your profile with details such as NAICS and SIC codes, equipment, capabilities, services, certifications, location, hub-zone, SBA and more. This allows primes & OEMs to search and find you according to your unique capabilities and what you can produce, not just what you have built in the past.

What's In It For You?

- Suppliers can easily discover large manufacturers needs and respond to their RFI/RFQ/RFP's for new contract opportunities
- Buyers can quickly find the perfect qualified supplier based on deep filter criteria such as: equipment, certifications, SBA designations, capabilities, processes and more
- Visualize supply chain risks and alternate supplier suggestions
- Verify suppliers and manufacturers via U.S. Gov blacklists
